MEMORANDUM FOR: Arielle Roth
Assistant Secretary of Commerce for Communications and
Information Administrator and NTIA Administrator
National Telecommunications and Information Administration

Michael A. Cannon
Executive Director and Chief Executive Officer
First Responder Network Authority

A handwritten signature in black ink, appearing to read "Arthur L. Scott Jr.", written over a white rectangular background.

FROM: Arthur L. Scott Jr.
Assistant Inspector General for Audit and Evaluation

SUBJECT: Revised Project Objective – Evaluation of FirstNet
Cybersecurity Oversight
Project No. 2026-532

This memorandum is to inform you of a significant change to the evaluation objective for this project. The original objective was to assess the effectiveness of the National Public Safety Broadband Network's (NPSBN's) security controls in detecting and responding to cyber incidents. During project planning, we determined the original objective could not be evaluated as intended due to contractual constraints.

Our revised objective is to assess whether FirstNet Authority provides effective oversight to ensure AT&T meets contractual cybersecurity requirements. The revised title of the project is stated in the subject line. We are replanning the project in accordance with the new objective and will further discuss the matter with relevant officials.

Thank you in advance for your cooperation.
